The Award was given away by Mr. Prabal Basu, C&MD during the Foundation Day celebrations at Kolkata. Mr. Rathnakar has to his credit an incredible achievement of getting a turnover of Rs. 102 Cr. for the Logistics, Mumbai branch. No Region or Branch in the SBU has ever achieved 100Cr. plus turnover in the past. With his excellent leadership skills and business acumen, Mr. Rathnakar helped to drive a growth of 32% in the turnover, 74% in PBT and 26% in tonnage over the previous year. He successfully achieved 100% growth within 5 years of taking over as Branch Head in Mumbai. The Western Region achieved Monthly Collection targets for all the 12 months of the financial year. He is well connected with the industry and has been regularly participating in the ACAAI Meeting as an active member thereby managing and influencing industry-authority interface for improving the Company's as well as the industry's service delivery standards.

Congratulations!

Mr. Arpan Biswas, Assistant Manager Marketing, IP - Kolkata was awarded "Young Achiever of the Year", for the year 2014-15. The Award was given away by Mr. Prabal Basu, C&MD during the Foundation Day celebrations at Kolkata. Arpan helped to increase the market share among major MNC chemical companies substantially, since his posting with the Eastern Region IP Marketing team. He worked towards delivering 1.3 lakh barrels against his personal budgeted target of 85,000 barrels in 2015-16. He developed 17 new customers in the Eastern Region to whom around 30000 barrels were delivered in 2015-16 vis-a-vis target of 5,000 barrels. In 2016-17 he helped foray into a new segment - food & fruit sector, which was hardly explored earlier in the Eastern Region. Volume in this segment increased from 400 barrels in 2015-16 to 4000 barrels in current financial. He helped define the Private Bitumen Market in the Eastern Region with a detailed project report specifying the number of players, volume etc. He also carried out detailed market assessment in Bihar, Jharkhand, Orissa, Telangana, part of Uttar Pradesh etc. and a detailed survey of plastic drum market in the Eastern Region in 2016-17.

Congratulations!

He achieved no negative variance in terms of price from almost all customers in 2015-16. In 2016-17 despite steep increase in steel price, he was able to recover the increase from all major customers. The budgeted debtors' factor days of 35 days was achieved in 2015-16 itself vis-a-vis budget of 36 days. This was done by encouraging customers to use RTGS as the payment mode rather than traditional cheque payments. In 2016-17 the debtors' factor days has been further reduced to 33 days. None of his assigned customers appear as debtors beyond 180 days. All his new customers are in complete compliance with Company's credit policy. He reconciled IOCL bitumen account from 2012 onwards and cleared all outstandings, converted number of customers of second-hand drums and HDPE drums to new MS drums, and contributed personally in development of the SBU's Microsite and was responsible for the content management also. He delivered drums to Orissa market for the first time in recent history. In spite of his stellar performance and achievements, Arpan remains a very down to earth person and is a thorough team player supporting all other departments and colleagues in range of operations at IP, Kolkata spanning from production planning to despatch.

HSE [HEALTH, SAFETY & ENVIRONMENT] UPDATE

Electricity, which is one of the biggest killers in the industry, takes the shortest path to ground via a conductor. As human body is a conductor, it is very easy and likely for the human body to fall prey to electric shocks. Depending upon the voltage, even a small magnitude of electricity may prove fatal sometimes. For example though 100-200 milliamps appear to be of very small magnitude of electricity, it could take away a human life! Considering the seriousness of the hazard, a two-day workshop on electrical safety was organised in which employees from different SBUs pan India participated. The training gave a good insight on fault calculations, relay coordination, earth fault protection etc. At the end of the program each SBU developed JIP [Job Improvement Plan] and presented the same to Ms. Manujusha Bhatnagar, Director [HR&CA].

In compliance with SEBI guidelines, we have embarked on the journey of Business Responsibility and Sustainability Reporting from the financial year 2016-17. In line with this an appreciation workshop was organised at each of the Company's prime locations and SBU Headquarters along with materiality assessment with internal and external stakeholders.
